## Super Admin (Urbeno Operations) - Training Guide

Urbeno administrators who run the lifecycle, Masters, Audit, and Compliance

---

Version: 1

Portal: <https://tectrack.urbeno.in>

Sign-in: issued separately by Urb TecTrack (not listed here)

Support: [info@urbeno.in](mailto:info@urbeno.in)

Format: screenshot + detailed how-to for each step

This guide is for classroom or self-paced training. Follow the numbered steps on each page. Tips call out common mistakes.  
Credentials are delivered by system email - never copy passwords into this PDF.

## How to use this training guide

- Work through steps in order during a live training session or while practising on UAT.
- Each step has: What to do (numbered), Tips, and a full-page screenshot of the screen you should see.
- Pause after each step and confirm the Expected outcome before continuing.
- Ask your Urbeno facilitator to advance staff/factory actions when your role cannot perform them.
- Record questions in your notebook; report defects using the Client/Factory/Admin UAT results workbook.

## Training agenda

- Step 1 Sign in as Super Admin
- Step 2 Operations dashboard
- Step 3 Requests queue
- Step 4 Lifecycle actions on a request
- Step 5 Masters data administration
- Step 6 Users and password reset
- Step 7 Capacity oversight
- Step 8 Operational reports
- Step 9 Audit trail
- Step 10 Compliance registers
- Step 11 Recycling Heroes administration
- Step 12 Admin profile, MFA, and letterhead
- Step 13 Sign out

## Step 1 - Sign in as Super Admin

### What to do

1. Open the portal URL.
2. Enter your Urbeno admin email from the account notification.
3. Enter your password and click Sign In.
4. Complete two-factor authentication if enrolled.
5. Accept Terms and Privacy on first login if prompted.

**Tip: Admin accounts can change masters data and reset user passwords. Protect the authenticator and never share the session.**

The image shows a login form for Urb TecTrack, an e-waste management platform. The form is centered on a light green background. At the top, there is a logo for Urbeno (Recycling Heroes) and the text 'Urb TecTrack™ E-waste management platform'. Below this, there are two input fields: 'Email' with the placeholder 'you@company.com' and 'Password' with a masked password '\*\*\*\*\*'. A green 'Sign In' button is positioned below the password field. At the bottom of the form, there is a link for 'Forgot password?'.

## Step 2 - Operations dashboard

### What to do

- 1. Confirm you see the Operations Dashboard.
- 2. Review tiles such as New Requests, open work, and operational KPIs.
- 3. Use full navigation: Dashboard, Requests, Recycling Heroes, Sustainability, Capacity, Masters, Reports, Audit, Compliance.
- 4. Click New Requests (or equivalent) to start acknowledging Stage 1 work.

**Tip: Admins see all organisations. Treat client data as confidential even inside Urbeno.**

### Step 3 - Requests queue

## What to do

1. Open Requests.
2. Filter or search for Stage 1 items awaiting acknowledgement.
3. Open a request to Acknowledge, Request changes, Assign Vehicle, record Weighment, or Raise Invoice depending on stage.
4. Keep unique suffixes on registration / invoice / e-way / certificate numbers during training re-runs.

**Tip: Walk one request through stages 2-5 carefully before handing to factory for MRN / Form 6.**

## Step 4 - Lifecycle actions on a request

### What to do

1. Open request detail and read the current stage.
2. Stage 1: Acknowledge Request or Request changes (with a clear note to the client).
3. Stage 3: Assign Vehicle (registration, driver, phone).
4. Stage 4: Record weighment with slip photo + pickup photo; verify net = gross - tare.
5. Stage 5: Raise Invoice - tax/total calculated, e-way bill required.
6. Stage 8: Upload Certificate of Destruction after Form 6 is approved.
7. Record Payment when funds arrive so the client can close.

**Tip: Weighment without both photos must be refused. Do not type tax totals manually when the system calculates them.**

## Step 5 - Masters data administration

### What to do

1. Open Masters.
2. Use tabs for Users, Clients, Sites, Factories, Categories, Lookups, Email as available.
3. To help a user who cannot receive email OTPs: Users -> Edit user -> Reset / regenerate password -> copy the temporary password and share it securely out-of-band.
4. Create users carefully - welcome emails include temporary passwords.

**Tip: Never disable your own admin account. Prefer a throwaway user for password-lockout drills.**

The screenshot displays the Urb TecTrack Super Admin interface. The top navigation bar includes the Urb TecTrack logo, a search bar, and various menu items: Dashboard, Requests, Recycling Heroes, Sustainability, Capacity, Masters (highlighted), Reports, Audit, Compliance, a notification bell, and a user profile for Manish. The main content area is titled 'Master Data' with the subtitle 'Everything the platform references – clients, sites, users, factories, categories and lookups'. Below this, there are tabs for 'Clients & Sites', 'Users', 'Factory Sites', 'Category Master', 'Lookup Lists', and 'Email & Templates'. The 'Clients & Sites' tab is active, showing a table of clients. The table has columns for CODE, CLIENT, SITES, CONTACT, REQUESTS, and STATUS. There are three clients listed: BHRT (Bharat Retail), INFR (Infosoft Solutions), and TCPL (TechCorp Pvt Ltd). Each client entry has a 'Manage' button. A '+ New Client' button is located in the top right corner of the table. Below the table, there is a section titled 'Client ID rules' explaining that each client gets a unique 4-character uppercase code (letters and digits) used across invoices, MRNs, reports, and exports. The footer contains the Urb TecTrack logo, company information, and links for WhatsApp, Terms of Use, Privacy & Data, Compliance Notice, and Support.

**Client ID rules**

Each client gets a unique 4-character uppercase code (letters and digits). It is fixed at creation and used across invoices, MRNs, reports and exports. Prefixes URB, ADM, SYS and TEST are reserved for Urbano internal use.

## Step 6 - Users and password reset

### What to do

1. Open the Users tab.
2. Find the affected user and click Edit.
3. Confirm role, organisation/factory scope, and Active status.
4. Click Reset / regenerate password when email OTP is unavailable.
5. Copy the temporary password shown and communicate it via a secure channel.
6. Ask the user to sign in and change the password immediately.

**Tip: Password reset signs the user out of all sessions and clears lockouts. Audit logs record the action.**

## Step 7 - Capacity oversight

### What to do

1. Open Capacity.
2. Review utilisation across factories and categories.
3. Support factory teams when an override is justified and documented.
4. Use capacity views before approving unusual Form 6 volumes.

**Tip: Overrides are audited. Prefer prevention (routing to another plant) over chronic overrides.**

## Step 8 - Operational reports

## What to do

1. Open Reports.
2. Run Request Summary, Invoice Register, Sustainability, Heroes, and other admin reports.
3. Export for client packs or internal reviews.
4. Cross-check figures against a known closed REQ- during training.

**Tip:** When preparing client-facing exports, ensure tenancy filters are correct.

## Step 9 - Audit trail

### What to do

1. Open Audit.
2. Filter by request id, actor, action, or date range.
3. Confirm lifecycle events appear (ack, vehicle, weigh, invoice, MRN, recycle, certificate, payment, close).
4. Use Audit during UAT sign-off to prove the chain of custody.

**Tip: If an expected event is missing, investigate before production sign-off.**

## Step 10 - Compliance registers

### What to do

1. Open Compliance.
2. Review privacy, DSR, incidents, access reviews, and control status as available.
3. Confirm factory and client users cannot open this area.
4. Keep evidence packs ready for audits.

**Tip: Compliance is admin-only. A factory or client reaching this page is a Blocker.**

## Step 11 - Recycling Heroes administration

### What to do

1. Open Recycling Heroes.
2. Review plantings and tonnage.
3. Record planting when authorised (photos, location, counts).
4. Ensure client views remain appropriately scoped.

**Tip: Planting records support sustainability storytelling - keep photo evidence.**

## Step 12 - Admin profile, MFA, and letterhead

### What to do

1. Open Profile.
2. Confirm Role is Urbano Admin / Super Admin.
3. Enrol or manage Two-factor authentication.
4. Update password per policy when required.
5. Edit Urbano letterhead / company details if shown - these flow into Form 6 and MRN PDFs.

**Tip: Letterhead mistakes appear on legal PDFs. Double-check GST and address before saving.**

## Step 13 - Sign out

### What to do

1. Click Logout.
2. Confirm Sign In appears.
3. Lock your workstation if stepping away mid-session instead of leaving the portal open.

**Tip: Admin sessions can change production masters - treat them like production console access.**

The image shows a login form for Urb TecTrack, an e-waste management platform. The form is centered on a light green background. At the top, there is a logo for Urbeno (Recycling Heroes) and the text 'Urb TecTrack™ E-waste management platform'. Below this, there are two input fields: 'Email' with the placeholder 'you@company.com' and 'Password' with a masked password '\*\*\*\*\*'. A green 'Sign In' button is positioned below the password field. At the bottom of the form, there is a link for 'Forgot password?'.
