

Urb TecTrack

Client User (Requestor) - Training Guide

Waste generator / client organisation users who raise and close collection requests

Version: 1

Portal: <https://tetrack.urbeno.in>

Sign-in: issued separately by Urb TecTrack (not listed here)

Support: info@urbeno.in

Format: screenshot + detailed how-to for each step

This guide is for classroom or self-paced training. Follow the numbered steps on each page. Tips call out common mistakes.
Credentials are delivered by system email - never copy passwords into this PDF.

How to use this training guide

- Work through steps in order during a live training session or while practising on UAT.
- Each step has: What to do (numbered), Tips, and a full-page screenshot of the screen you should see.
- Pause after each step and confirm the Expected outcome before continuing.
- Ask your Urbano facilitator to advance staff/factory actions when your role cannot perform them.
- Record questions in your notebook; report defects using the Client/Factory/Admin UAT results workbook.

Training agenda

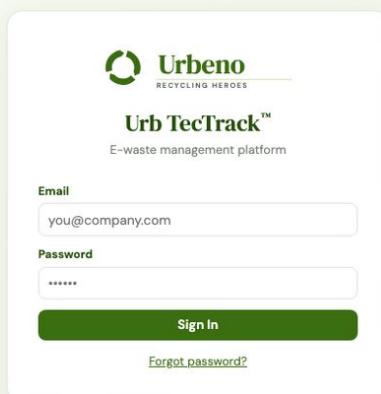

- Step 1 Open the portal and sign in
- Step 2 Home dashboard overview
- Step 3 Raise a new collection request
- Step 4 Track your requests list
- Step 5 Follow a request through the lifecycle
- Step 6 Recycling Heroes impact
- Step 7 Sustainability figures
- Step 8 Run and export reports
- Step 9 Read Terms of Use
- Step 10 Profile and change password
- Step 11 Sign out safely

Step 1 - Open the portal and sign in

What to do

1. Open the portal URL provided by Urbeno in your browser (Chrome, Edge, or Safari recommended).
2. Enter the email address from your account notification email.
3. Enter the password issued to you (or the temporary password from your welcome email).
4. Click Sign In.
5. On first login, open Terms of Use and Privacy Policy, tick the acceptance box, then Accept.

Tip: Never share your password. Use a private/incognito window if you also use other roles on the same computer. If Sign In fails, contact info@urbeno.in - do not email your password.

The image shows a login form for Urb TecTrack, an e-waste management platform. The form is centered on a light green background. At the top, there is the Urbeno logo (a green circular icon with a white 'U' inside) followed by the text 'Urbeno' and 'RECYCLING HEROES' in smaller text. Below this is the 'Urb TecTrack™' logo and the text 'E-waste management platform'. The form contains two input fields: 'Email' with the placeholder 'you@company.com' and 'Password' with a masked password '*****'. Below the password field is a green 'Sign In' button. At the bottom of the form is a link that says 'Forgot password?'.

[Forgot password?](#)

Step 2 - Home dashboard overview

What to do

1. After sign-in you land on Home.
2. Read the welcome line - it should show your first name and organisation.
3. Review the summary tiles: open requests, completed work, recycled kg, and trees planted.
4. Use the top navigation: Home, My Requests, Recycling Heroes, Sustainability, Reports.
5. Click + New Request when you are ready to raise a pickup.

Tip: You should NOT see Masters, Audit, Capacity, or Compliance. Those areas are for Urbeno staff only. Your Home figures reflect your organisation only.

Step 3 - Raise a new collection request

What to do

1. Click + New Request from Home or My Requests.
2. Select Site (required) from the dropdown - only your organisation sites appear.
3. Enter Pickup Location (building / floor / warehouse).
4. Optionally enter Your PO / Reference.
5. Confirm Pick Up Request Date.
6. Enter Approx. Quantity (units) and Approx. Weight (kg). Exact weight is captured later at weighment.
7. Add Notes if the team needs access instructions or a preferred window.
8. Optionally attach a Bill of Materials (CSV/Excel/PDF) and/or add Line Items.
9. Click Submit Request.
10. Note the new REQ- number on the request detail screen - share it with Urbeno if staff need to advance the job.

Tip: Leave required fields empty once to see validation messages, then fill them correctly. You cannot Acknowledge, Assign Vehicle, Weigh, or Raise Invoice - those are Urbeno actions.

Step 4 - Track your requests list

What to do

1. Open My Requests from the top navigation.
2. Scan the list - every row should belong to your organisation.
3. Use filters or search if available to find a specific REQ- number.
4. Click a row to open request detail and see stage progress.

Tip: You must never see another company's requests. If you do, stop and report it to Urbeno as a Blocker.

Step 5 - Follow a request through the lifecycle

What to do

1. On request detail, find the stage badge (1-9) and header information (site, raised by, dates).
2. As Urbano advances the job, refresh to see vehicle, invoice, and certificate updates.
3. Confirm you do NOT see Create MRN, Form 6 issue controls, or Upload Certificate.
4. When certificate and payment are both complete, look for Review & Close.
5. Open Review & Close -> Acknowledge closure to finish Stage 9.

Tip: Clients close the request after certificate + payment. Do not try Review & Close while payment is still outstanding - the system should refuse or hide the action.

The screenshot displays the Urb TecTrack Client portal interface. At the top, there's a navigation bar with 'Home', 'My Requests', 'Recycling Heroes', 'Sustainability', 'Reports', and a user profile for 'Ramesh'. The main header shows the request ID 'REQ-LM-001' and its status '4. Recycling & Compliance'. Below this, a progress bar indicates the stages: 1. Request Details (1 of 5), 2. Vehicles & Weighment (2 of 5), 3. Invoicing & Material Receiving (3 of 5), 4. Recycling & Compliance (4 of 5), and 5. Closed (5 of 5). The 'Recycling & Compliance' stage is currently active.

The 'Request Details' section shows the pickup request for 'TechCorp Pvt Ltd - Embassy Tech Village' on 13 Aug 2026. The 'Vehicles & Weighment' section shows one assigned vehicle, 'KA-01-LM-9001' with a net weight of 96 kg. The 'Invoicing & Material Receiving' section is locked. The 'Recycling & Compliance' section shows the current status of Form 6 (F6/2627/9981) as 'Approved' and 'Processed' on 21 Aug 2026. It also displays a table of E-waste categories processed, including 'REC-ITEW2' (Personal Computing: Personal Computers (CPU with input/)) with a weight of 96 kg. The 'Material recovery by category' table shows the following data:

CATEGORY	RECEIVED	FERROUS	NON-FERROUS	PLASTICS	PCB / BOARDS
REC-ITEW2	96	40.32	25.92	21.12	8.64
Total recovered	96	40.32	25.92	21.12	8.64

The 'Certificate of Destruction' section shows that Form 6 F6/2627/9901 is on file. The 'Device last-mile tracking' section shows a table of devices with their serial numbers, asset tags, and status (e.g., 'NIST' or 'In custody'). The 'Closed' section shows the requestor's acknowledgment of closure.

Step 6 - Recycling Heroes impact

What to do

1. Open Recycling Heroes from the navigation.
2. Explore planting / tonnage views for your organisation's contribution.
3. Open any available detail cards or photos to understand the CSR story.

Tip: This is a read-focused client view. Urbeno-wide planting controls may not appear for client users.

Step 7 - Sustainability figures

What to do

1. Open Sustainability.
2. Review recycled weight, CO2 avoided, and related impact for closed work.
3. Open How these numbers are built / Methodology if offered.
4. Download Impact PDF when you need a shareable summary for your organisation.

Tip: In-progress requests do not inflate closed impact until the invoice is closed.

CO₂e AVOIDED
5021
kg - EPA WARM v16 × 1.44 kg/kg

LANDFILL DIVERTED
3208
kg - R2v3 recovery 92%

WATER SAVED
2127.1
kL

ENERGY SAVED
8020.1
kWh

What is counted

Metrics are derived from **closed invoices** in the selected financial year — billing weight, material recovery assumptions, and Urbano's published coefficients (ported from the v6.3.1 prototype).

Based on 16 closed invoices across 16 requests - 3.49 tonnes.

Methodology

- **Recycling Heroes promise:** every 1 tonne of closed e-waste earns 1 sapling, nurtured for 3 years toward self-reliance
- CO₂e avoided: 1.44 kg per kg e-waste — EPA WARM v16, mixed electronics
- Landfill diversion: 0.92 — R2v3 downstream recovery average
- Water / energy: 0.61 kL and 2.3 kWh per kg
- One organisation's tonne keeps toxins out of soil and water; the sapling it unlocks cools air, holds soil, and benefits the wider neighbourhood over years — small closed loops that scale into public good

Step 8 - Run and export reports

What to do

1. Open Reports.
2. Choose a report type such as Request Summary, Invoice Register, Certificate Log, Sustainability, or Recycling Heroes.
3. Set the period (FY / month) if a picker is shown.
4. Run the report and Export CSV or PDF when available.
5. Confirm there is no MRN Register - that report is for factory staff only.

Tip: Exports must contain only your organisation's rows. Keep downloaded files confidential.

Step 9 - Read Terms of Use

What to do

1. Open Terms of Use from the footer or the first-login acceptance gate.
2. Scroll through the document so you understand obligations before accepting.
3. Return to the portal via navigation or the browser back control.

Tip: You will not be asked to re-accept unless Urbeno publishes a new version.

Terms of Use

Version 1.2 · effective 2026-08-27

Version 1.2 · effective 27 August 2026 · applies to all users of Urb TecTrack™

1. What this platform is

Urb TecTrack™ is operated by Urbeno Private Limited ("Urbeno", "we", "us") to record and track the collection, transport, receipt, processing and certification of end-of-life electrical and electronic equipment. It is a record-keeping and communication tool. It does not itself constitute a contract for recycling services — the commercial agreement between your organisation and Urbeno governs that relationship and prevails over anything shown here if the two ever disagree.

2. Who may use it

Access is granted to named individuals by Urbeno at the request of an authorised representative of your organisation. Accounts are personal. You may not share credentials, and you are responsible for activity carried out under your login. Notify us promptly at info@urbeno.in if you believe an account has been compromised or if a colleague leaves and should lose access.

3. What you see

Client users see only records belonging to their own organisation, and only the sites their account is scoped to. Certain internal operating records — including the material receipt note raised at our factory gate — are visible to Urbeno staff only. This is deliberate: those documents govern our internal custody of material and are not part of your compliance file.

4. Accuracy of what you enter

Weights, quantities, item descriptions and reference numbers you provide when raising a request are treated as declarations. Approximate figures are expected at the request stage; the weight used for invoicing and for every compliance document is the net weight recorded at collection, either on a weighbridge or, where site conditions prevent that, by a manual method recorded with its reason. Where the invoiced weight differs from the weighed net, the difference and its explanation are recorded against the invoice.

5. Documents issued through this platform

- Form 6 manifests are issued under Rule 12 of the E-Waste (Management) Rules, 2022, one per invoice.
- Certificates of Destruction are prepared outside the platform, signed, and uploaded here. Several may be issued against a single request where material belongs to different departments.
- Material receipt notes are internal gate documents and are retained by Urbeno.

Documents downloaded from this platform are true copies of the records held by Urbeno. If a discrepancy ever arises between a downloaded copy and our retained original, the original governs.

6. Service levels

Urbeno targets issue of a Certificate of Destruction within thirty (30) days of material being received at the processing facility. This target is measured and displayed against every consignment. It is a service commitment, not a warranty, and does not apply where processing is delayed by matters outside our reasonable control, including incomplete documentation from your side, regulatory hold, or force majeure.

7. Payment and closure

Invoices fall due according to the payment terms agreed with your organisation and recorded on your profile. Once those terms elapse on an unpaid invoice, this platform may send payment reminders until the invoice is settled. A request cannot be marked complete in the platform until the invoice raised against it is paid in full.

8. Availability

We aim to keep the platform available at all times but do not guarantee uninterrupted access. Planned maintenance is notified in advance where practical. Operations continue during any outage; records are brought up to date once access is restored.

9. Acceptable use

- Use the platform only for managing your own e-waste consignments with Urbeno.
- Do not attempt to access records belonging to another organisation.
- Do not upload malicious files, or content you have no right to share.
- Do not scrape, resell or republish platform data without our written agreement.

10. Intellectual property

The platform, its design and the Urbeno and Recycling Heroes™ marks belong to Urbeno Private Limited. Your data — your consignment records and the documents issued to you — remains yours, and you may export it at any time from the Reports section.

11. Limitation of liability

Nothing in these Terms limits liability that cannot lawfully be limited under applicable law. Subject to that, Urbeno is not liable for indirect, incidental or consequential loss arising from use of the platform, and our aggregate liability in connection with the platform itself is limited to correcting the records concerned. Liability for the recycling services themselves is governed by your service agreement with Urbeno.

12. Changes

We may update these Terms as the platform develops. Material changes are notified to registered users by email and/or on next sign-in. The version and effective date shown at the top of this page always reflect the terms currently in force. Continued use after notice constitutes acceptance of the updated Terms, unless applicable law requires explicit re-acceptance.

13. Governing law and jurisdiction

These Terms are governed by the laws of India. The courts at Bengaluru, Karnataka shall have exclusive jurisdiction, subject to any mandatory consumer or data-protection remedies available under the Digital Personal Data Protection Act, 2023.

Step 10 - Profile and change password

What to do

1. Click your name / avatar -> open profile (or go to /profile).
2. Confirm Role is Client User and Organisation is correct.
3. To change password: enter Current password, New password, Confirm new password.
4. New password must be 10+ characters with upper-case, lower-case, and a digit.
5. Click Update password.
6. Confirm Two-factor authentication is NOT shown for client users.

Tip: Do not change a shared training password unless Urbeno asks you to. Prefer N/A for password-change practice on shared accounts.

Step 11 - Sign out safely

What to do

1. Click Logout in the top-right when you finish.
2. Confirm you return to the Sign In screen.
3. Close the browser tab if you are on a shared computer.

Tip: Always sign out on shared machines. Policies are not re-prompted on the next visit unless updated.

The image shows the Urb TecTrack sign-in interface. At the top, there is the Urbeno logo (a green circular arrow) and the text 'Urbeno RECYCLING HEROES'. Below this is the 'Urb TecTrack™' logo and the tagline 'E-waste management platform'. The sign-in form consists of two input fields: 'Email' with the placeholder 'you@company.com' and 'Password' with masked characters '*****'. A green 'Sign In' button is positioned below the password field. At the bottom of the form, there is a link for 'Forgot password?'.
